- It will take about 2-3 quarts of paint to cover the spot if you are using a solid color.
- Tape the edges of your spot with a 2 inch margin before painting.
- **Do not paint on the white lines or parking lot curbs.**
- Sweep the dirt and pebbles off the spot.
- Use chalk to draw out your sketch.
- Start painting at the front of your spot out to the end (front bumper to back bumper)
- Consider making a stencil ahead of time for lettering or detailed images to save a lot of time.
- Bring extra plastic containers (**no glass**) for water and brushes.
- Bring a drop cloth or plastic sheeting to put under paint cans. **NO paint is permitted outside your spot.**
- Limit your paint palette as the quarts of paint are expensive or share colors with a friend.
- Your family may already have leftover exterior house paint at home that you can use.
- Open the paint can at home and check to see if it is still usable before the paint date.
