Fitness/sports classes are typically one-semester classes. Fall sports classes occur from August-December, and spring sports classes occur from January-May. Winter sports classes occur from October-January. When not competing, athletes will be assigned to a strength and conditioning class.	
* Fee bearing classes are one-semester classes, with the exception of winter sports. Fees associated with PE or sports classes are for the class only, and do not guarantee playing time during the athletic season. Fee amount(s) are subject to change prior to the start of the school year.	
**In order to take the swimming class, a scholar must know how to swim and be able to complete a general safe-swim test in a satisfactory manner. While swimming class is offered year-round, swim team competition occurs in the fall. Golf is also offered year-round, with competition occurring in the spring.	
<u>Electives are not prioritized in the scheduling process. In other words, there is no guarantee made or implied that desired elective classes will be available.</u> Please select four elective choices and rank them from one to four based on your preference (i.e. put a number 1 next to the class you really want, a number 2 next to your next choice, and so on). In addition, it is required that you select at least two, and up to three alternate elective class choices. If you fail to select alternates, those choices will be made for you.	
Typically, electives are only a one-semester class, however, some do require a full year commitment. Certain electives are fee-bearing, while others are not. Certain classes, such as band or dance, may require instrument rental or the purchase of personal equipment, such as shoes or specialized clothing, in addition to the class fee. Fees associated with sports classes are for the class only, and do not guarantee playing time during the athletic season. Fee amount(s) are subject to change prior to the start of the school year.
